SCOTTS®: THE FOUNDATION OF A GREAT LAWN

At Scotts®, we understand it can be a challenge to maintain your lawn. Over time, the soil of your lawn can become stressed, depleted of nutrients, and compacted. Soil is important; it is the foundation of your lawn. A strong foundation provides the environment in which your lawn can thrive.

NEUTRAL pH PRODUCT

IDEAL TURF pH IS BETWEEN 6.0-7.0 pH

WHAT DOES SCOTTS’ FOUNDATION SOIL IMPROVER DO?

Scotts® Foundation Soil Improver is an innovative combination of natural ingredients. The purpose of the product is to reduce soil compaction, boost water and nutrient retention, and provide an environment for microbial growth.

REduces Soil Compaction

Boosts Water & Nutrient Retention

Provides an Environment for Microbial Growth

HOW TO USE

To improve the soil ahead of the growing season, apply Scotts® Foundation Soil Improver in the Spring. To improve soil conditions for overseeding and aeration, apply in the fall. This product works on established and newly seeded lawns.

Scots No-Quibble Money Back Guarantee™

If, for any reason, you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us your original evidence of purchase and we will mail you a refund check promptly.
