SIMPLE STEPS FOR SUCCESS
PASOS SIMPLES PARA UN JEREZADO EXITOSO

PREP
Rake area to loosen the top layer of soil and remove any dead grass.
For best results, add a thin layer of Scotts® Turf Builder® LawnFertil™ before applying seed.

PREPARE
Rasítela el área para aflojar la capa superior de tierra y retirar el césped muerto. Para obtener mejores resultados, aplique el fertilizante Scotts® Turf Builder® antes de aplicar la semilla.

APPLY
Use a Scotts® spreader to apply the seed. Lightly rake the seed into the soil.
For best results, apply Scotts® Turf Builder® Starter® Feed for New Grass when seeding to help new grass grow in quicker and thicker.

APLique
Utilice un dispersador Scotts® para aplicar la semilla. Rasítilo ligeramente para las semillas. Para obtener mejores resultados, aplique el fertilizante Scotts® Turf Builder® Starter® Feed for New Grass durante la siembra para ayudar a que el nuevo césped crezca más rápido y denso.

WATER
Water daily or as needed to keep the soil surface moist until the seedlings reach at least 2 inches tall.

RIEGUE
Riegue a diario o según sea necesario para mantener la superficie del suelo húmeda hasta que las plantas de semillero alcancen por lo menos 5 cm de alto.

The Scotts Advantage*
Grass lawns start with Scotts® Turf Builder® Grass Seed. Our grass seed experts developed this mix to ensure seeding success when growing grass. Your new lawn will thrive in tough conditions so it will flourish season after season.

Scotts takes great care in developing each and every bag of Turf Builder® Grass Seed. We start with high quality seed and filter it 3 times to remove weed seeds and fillers.

Then we give each seed a little extra assurance by adding a super-rich coating. It absorbs 100% more water than uncoated seed and stays moist twice as long. The coating helps prevent the seed from drying out, even if you miss a day of watering.

Better seed gives you better results. That’s why Scotts has been the leading brand for over 100 years.

Freshness Matters
Scotts grass goes to great lengths to bring you the freshest seed available, so you can grow your own thick, beautiful lawn. For best results, always use fresh seed. After opening, plant within the season. Store in a cool, dry place.

Scotts No-Quibble Guarantee*
If for any reason you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us original evidence of purchase and we will make you a refund check promptly.

NOTES TO CALIFORNIA, WASHINGTON AND VIRGINIA CONSUMERS:
Some states requireitation prior to maintaining certain lawn areas against weeds. The need for this depends on the specific area and its use. It is important to follow the guidelines provided by the Department of Agriculture and the local authorities.
